Round 2 2013

4. Stockholms Tunnelbana [10 marks]

The table on the Answer sheet contains a list of Stockholm metro stations translated into English. Actually, a few of them are pretty loose translations, and some are a bit over-literal. (We adapted them from a humorous map published by the English-language Swedish news-magazine The Local.) Nonetheless, we think you'll be able to match up most of them.

Question

Put the appropriate station numbers from the map next to their English translations in the answer sheet.
